Design and Construction of Local and Regional Exchange Facilities

Version 0.2
February, 2001
Bill Woodcock
Packet Clearing House
Determining Need

- Sufficient end-user base?
- No existing facility to build upon?
- Sufficient degree of locally-destined traffic?
Geographic Location

- User population
- Fiber facilities or rights-of-way
- Founding participants
Density

- Centralized in one room
- Campus of adjacent buildings
- MAN
- Frame or ATM cloud
Building Management

- Telco hotel
- University computing or telecommunications facility
- City emergency services facility
In-Building Facilities

- Pathways
- Power
- Cooling
- Access and security
Services

- Switch fabric
- Crossconnects
- Route-server
- Remote hands
- NTP
- Web caching
Business Structure

- Incorporated or unincorporated?
- Staffed or volunteer?
- Non-profit or for-profit?
- Cooperative or external ownership?
- Cost-recovery (predictive or actuals), ad-hoc, or market pricing?
Policies

- BLP, MLPA or MMLPA?
- Mandatory looking-glass?
- Routing and switch-port information public or members-only?
- Secrecy in the event of security problems, failures, or mistakes
- Extensible switch fabric?
